HUDSON 37

The 4-Cylinder Masterpiece

No man need be told that Howard E. Coffin leads all in building four-cylinder cars. No engineer and designer has built as many successful automobiles.

In building the Hudson "37" all his skill and experience contributed to its perfection. But in addition there was also worked into the car the skill and experience of his 47 expert associates. Thus was produced a car such as no one man is capable of building. truly a composite masterpiece.

The "37" combines all that these experts know in the art of automobile building. Its detail of comfort, beauty, distinctiveness and equipment is precisely the same as that furnished on the "Six.

The car has sufficient power for every requirement. It is quiet and free from the degree of vibration common to most automobiles.

It is a simple, accessible, durable car-the best our 48 engineers know how to build, therefore we unhesitatingly recommend it as the Master of any four-cylinder car, regardless of cost, power or make.

No other name means so much in the development of the automobile. Mr. Coffin has designed and superintended the building of five most famous and successful cars. His motor designs are today used by a dozen leading manufacturers. Transmissions and axles of his design are in daily use on thousands of well known cars of many different makes. A large percentage of the better class of American cars are today using the system of lubrication which he brought out eight years ago.

Its equipment is complete in every detail, which includes an electric self-cranking, electric lighting-dynamo type-and ignition system, known as the Delco, patented. 1.luminated dash and extension lamp, mohair top, curtain, rain vision windshield, speedometer, clock, demountable rims, 36x4 inch tires, 118 inch wheel base, etc. The seat cushions are 12 inches deep. The finest materials are used throughout. No de-

tail of finish or equipment is skimped or overlooked. Now, if you are from Missouri, I will only too gladly show you and prove the above statement is correct to your satisfaction-regardless of price, horse-power or make-no four-cylinder car excepted.

Models are Five-passenger Touring and Torpedo and Two-passenger Roadster at \$1875 each; Limousine, \$3250; Coupe, \$2350; f. o. b. Detroit. bodies with Limousine and Coupe, extra.

Concerning the German theatrical troupe now touring South Texas, the Galveston News of Nov. 19th has this to say: "Cathedral Hall resounded with Teutonic applause and laughter Monday evening. The German players from Berlin now touring Texas with repetoire of entertaining programs, all rendered in the tongue of the Fatherland, provided an evening of more than average amusement for the German speaking citizens of Galveston. Humorous songs and recitations by Alfred Wosten, Fraulein Lotti Rathe Waldemar Alfredo, Fraulein V. Philippbar and Fraulein Ritta Braklow met with a hearty reception as they ran the gamut from the melodramatic to character studies." Besides the above observations of the dramatic critic of the Galveston News, the company and its performances are highly commended by Hon. August Haxthausen's paper, the

Texas Deutche Zeitung of Houston. As for the skating—you can skate any night in the future except Sunday and on nights of shows and other attractions. Skating is so popular here that the floor will not accommodate all, consequently by skating every hight there will always be a small enough crowd so as not to make it uncomfortable for skaters. Wednesday nights are for ladies exclusively, but we are glad to see them at all other times. Friday and Saturday afterhoons there will also be skating. Don't be backward about learning to dance. Do it now—as you may not get the chance again. I have as good a dancing teacher as can be gotten anywhere, and if he don't turn you out satisfied all you have to do is to say so and your money will be returned. W. W. BREWER.

Medina Dam Case Again

The Fourth Court of Civil Appeals yesterday affirmed the decision of the District Court dissolving the temporary injunction secured by William Reitzer and wife against the Medina Valley Irrigation Company. -Chief Justice Fly's opinion is lengthy, covering fourteen pages, and takes issue with the Supreme Court of the United States in that a district court of the United States has the authority to condemn land in Texas for foreign

Reitzer, the owner of 253.4 acres of land in the basin of the Medina Valley. sued the irrigation company when his land was about to be flooded by the teacher, school boy and school girl.

The case was appealed by the irrigation company to the Federal Court, which remanded the case back to the District Court, On final hearing in the District Court the injunction was dissolved and the appeal to the Court of Civil Appeals by Reitzer followed.

The Appellate Courts now hold that Reitzer's act of working for the irrigation company and aiding in the construction of the dam is, in itself, a sufficient cause of estopel of injunction proceedings. The only recourse left, besides an appeal to the Supreme Court, is to file suit in the District Court, if he is not satisfied with the rulings of a board of commissioners, as provided for in the bill giving the right of eminent domain to all public corporations.

Taking issue with the Supreme Court, Judge Fly, in his opinion, says: "We feel indisposed to endorse the District Court of the United States | pneumonia. "It cured me of a dread- atives in Hondo last Saturday. has the authority to condemn land in ful cough and lung disease," writes Texas for a foreign corporation, al- W. R. S. 239. That decision was rendered by five judges and a vigrous dissenting opinion was concurred in by Chief Justice Fuller, Justice Brewer, Justice Holmes and Justice Peck-

Giving his reasons for the opinion before expressed, Justice Fly goes on

"We believe the attempted exercise of the power of condemnation of the property of the citizen of a State by a Federal Court, is without sanction of law or warrant of authority, and is an invasion of the sovereignty of State and the rights of its citizens."

Referring to the remedy Reitzer has in his power to invoke, the District Judge, Judge Fly futner says:

"No other officer is granted the power by the statutes of Texas to receive the petition for condemnation or appointment of commissioners to ascertain damages, except the County Judge, and he alone can try the cause if there is dissatisfaction with the award of commissioners.

"All such grants of power are strictly construed, for the power of eminent domain is very harsh, and methods set forth in the statute granting such power must be strictly folowed."

It is understood that the Reitzer case will be made a test case and be appealed to the United States Supreme Court.-San Antonio Express.

In reply I wish to say, first, that I never make any promises as to what Peruna will cure. No physician can make positive statements of that sort. I can say this much, however, if I were in your place I should certainly give Peruna a trial. I know of no other remedy that would be so likely to be of use to you in your present condition as Peruna. Take a tablespoonful before each meal and at bedtime. Continue this for two or three weeks and then if there is anything you wish to ask me further write me and I will give your letter prompt attention.

If I find that the Peruna is not helping you I will be perfectly frank you take Peruna unless it was really helping you. But it has rescued so many cases of kidney disease that I am quite confident you will find it exactly suited to your case.

Kidney disease begins with catarrh of the kidneys. Peruna is a catarrh remedy. Unless the destruction of the kidneys is already too great Peruna relieves the catarrh and the cause of the kidney disease is removed.

I shall anxiously await a report of your case. Remember, all letters are sacredly confidential. I never use any one's name or address without his written consent. My correspondence is absolutely private. PERUNA IS

A certain very attractive young lady has a bost of male admirers, among whom is a rather handsome and vivaclous blue eved youth. He goes much into society and is a hot favorite among the picer sex because of his eyes. Alack! One of them is glass But there is no need, as he says, for every one to know that, and, really, it seems so much the counterpart of the other that not one in a hundred would detect it. On one occasion he escorted the young lady in question to a refreshment room. As they were taking tea and coffee he looked unutterable things at ber, when all of a sudde she gave vent to a startled exclanation. Her eyes fixed on his with : mysterious intentness and horror. fly had settled in the center of his The sight of that eye looking at her no attempt to brush it off was too much for his companion. Escaped After Fifteen Years

W. P. Brovles made a successful escape after fifteen years of suffering from kidney and bladder troubles. Foley Kidney Pills released him and will do just the same for others. He says: "They cured a most severe backache with painful bladder irregularities, and they do all you claim for them." Take the "direct road" to health and strength by using Foley Kidney Pills for backache, rheumatism, weak, sore kidneys and bladder irregularites. They are the best medicine you can buy for kidney and bladder ailments. W. H. Windrow.

Don't Suffer!

"I had been troubled, a little, for nearly 7 years," writes Mrs. L. Fincher, in a letter from Peavy, Ala., "but I was not taken down, until March, when I went to bed and had to have a doctor. He did all he could for me, but I got no better. I hurt all over, and I could not rest. At last, I tried Cardui, and soon I began to improve. Now I am in very good health, and able to do all my housework."

The Woman's Tonic

You may wonder why Cardui is so successful, after other remedies have failed. The answer is that Cardui is successful, because it is composed of scientific ingredients, that act curatively on the womanly system. It is a medicine for women, and for women only. It builds, strengthens, and restores weak and ailing women, to health and happiness.

If you suffer like Mrs. Fincher did, take Cardui. It will surely do for you, what it did for her. At all druggists. Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn.,

EMSDOM OF GREAT POWER.

Pastor Russell Preaches His First Pas toral Sermon at Washington Temple. The Message of the Hour-Not the Burning of the World, but the Rolling Away of the Curse and the Uplift of Humanity Will Result From the Messianic Kingdom of a Thousand Years.

Washington City. Jan. 5 .- Pastor Russell, having accepted the call of the Washington Temple Congregation ou nsectarian), preached his first pastoral sermon in the Temple today. He announced that his first three sermons here will be based upon texts cut in the

stone front of our

handsome Union Station. The first of these served him today: "Thou hast put all things under Him." (Psalm 8:6.) The speaker said :-

Our text is a prophecy respecting the Divine intention that eventually Messtah's Kingdom shall be established in majesty and power. Victoriously it shall overthrow the Prince of Darkness and his reign of sin and death. Gradpally it will emancipate humanity. bealing their sin-sickness, opening their blinded eyes of understanding, and upstopping their deaf ears to the Message of Divine grace and peace. Eventually every knee shall bow and every tongue confess to the glory of God. In the language of our text, Divine Power will be exercised through Messiah and His Kingdom to the full subjection of every earthly thing to Him.

From day to day we repeat the Lord's prayer, "Thy Kingdom come: Thy will be done on earth, as it is done in Heav en." Its fulfilment would be impossi ble aside from the associated promise of the Bible that the present Dispensation of preaching the Gospel is eventwally to give way to the Messianic Kingdom and its reign of force Many Christian people entirely overlook this feature of the Divine Program-that the New Dispensation is to be ushered in by a Time of Trouble which will wreck everything not fully in accord with the Divine standards.

A Kingdom of Power and Glory. I remind you of the Divine decree re

specting Messiah's Kingdom recorded in the Second Psalm: "I will give Thee the heathen for Thine inheritance, and the uttermost parts of the earth for Thy possession Thou shalt break them with a rod of iron; Thou shalt dash them in pieces like a potter's vessel." This prophecy is referred to by our Lord, who declared that its fulfilment would be after the completion of His Courch, to participate with Him in the work of bringing the world into proper subjection to the rules of righteousress, justice and love. He says, "To him that overcometh will I grant to sit with Me in My Throne." "To him that overcometh . . will I give power over the nations; and he shall rule them with a rod of iron; as the vessels of a potter shall they be broken into shivers: even as I received of My Father."-Revelation 3:21; 2:26, 27,

A failure to apply the Scripture por traying the transfer of the government of earth from the Prince of Darkness to the Prince of Light has confused the minds of many and led them to expect things contrary to the Divine Word. The very Scripture so frequently quotof in support of a gradual conversion of the world declares that this transfer will not be by the conversion of the world-that it will be by Messiah's taking possession of man's inheritance purchased by Him for humanity at Calvary. The nations will become Christ's by the conquering power of the terrible trouble in which the nations will be angry and God's wrath will come .-Revelation 11:15-18.

The Pendulum's Swing.

in the long ago past our forefathers studied these Scriptures, but misunderstood and misapplied them. They assumed that God had given to the Church authority to establish His Kingdom. The espoused virgin Church became united or married to the world -to civil power-and ceased to wish for and to pray for the Heavenly Bridegroom to whom she was espoused through the Gospel. Under the delasions that she had been authorized to establish Messiah's Kingdom and that her share in earthly dominion brought about by union with civil power constituted it the Kingdom of Messiah, the Church endeavored to apply and to

fulfil these prophecies. An attempt was made to rule the world with a rod of iron through the civil governments, and to put under the Church's feet everything antagonisto her supposed rights and interests. as a result of this mistaken interpretation of the Lord's Word, the world was drenched with blood, and atrocities were committed by professed followers of Christ, who, however sincere the Cause of God

to from one extreme to the opnosite has so long delayed to bring to earth

the Church's conquering the world by rack and stake, the general misconception turned to an expectation of Message. This second mistake is not so serious in some respects us the first -it does not involve horrible atrocities in the name of God and the Savier. However, it is equally misleading as respects the Truth. It sets aside the Word of God and substitutes the numan theory that the preaching of the Gospel is to convert the world. The Divine Word is that the preaching of the Gospel is for the purpose of selecting a Church to be Messiah's jointheirs in His Kingdom.

If the Church could convert the world with the Gospel, it would be very fine. But it is surely absurd to so expect in the face of our experiences of the past century and of the plain statements of God's Word to the contrary. All see that the world is not being conconvert the people at home, it would be vain for her to expect to convert the heathen abroad. If great religious centers such as London, Rome and Washington are no bearer to having God's will done in them as it is done in Heaven, what hope would there be of better results in heathendom?

I am not saying one word against Foreign Missions, God forbid! In proportion as we are able to send the light Truth into more benighted lands, let us do so. But, if possible, let us send the True Light from God's Word, And us trim our lamps that we our seives may have that True Light in our favored land. What we urge is that Christian people should come back to the teaching of the Bible. In order to do this, each denomination should throw away its creedal spectacles, which have injured the spiritual sight of all of us. All true children of God should study afresh the Divine Chart, which shows us where we are and the Port for which we should strive.

Heirs of the Kingdom.

Thus doing, all is plain. The shadows and mists of darkness flee away. We begin to realize and to see that the Elect Church are all that are being saved as yet; and that they are being chosen out of the world for a very special high office in joint-heirship with their Redeemer.

The non-elect are not consigned to endiess misery nor to purgatorial torture, but simply sleep, awaiting the glorious awakening in the morning of the New Dispensation-awaiting the establishment of Messiah's Kingdom with power for their release from the chains of sin and the prison-house of the tomb. If this Message goes to the heathen of the Orient, it will doubtless deal with them as it has done with the peoples of the Occident-all will receive enlightenment; a few will be drawn to saintship and prepared under the Lord's providence for glory. honor and immortality with Jesus at His Second Coming, by the glorious lasting life because of his disobedience, disagrees with you, take HERBINE; it the guarantee with each box. Let Us Connect Up Our Text.

In the Eighth Psaim we find the Prophet expressing amazement at the greatness of the Creator as manifested in nature, especially in the starry firmament. He then expresses amaze ment that so great a Being should take heed to humanity in its present deplorable, fallen, sinful condition. Prophetically he implies a knowledge of the fact that God from the beginning purposed a redemption for every member of the race.

The Prophet then answers his own question as to what man is, explaining that as he left the hand of his Creator be was crowned with glory and honor, as an earthly image of his Maker, only a little lower in gradatica or scale than the angels. He was made to have dominion over the earthly works of God. The intimation is that God's visiting of humanity in due time will mean the reclamation of the earthly dominion and its human king from sin and death. Nothing in the prophecy goes into detail, because it was not then due time for details to be revealed.

Centuries Later St. Paul Commented. St. Paul declares, "Now is our salvation nearer than when we first believed." The greater nearness should make many features of that salvation much more conspicuous. Taking up David's prophecy, he shows that it implies human Restitution, the bringing of mankind back to the image and likeness of God and to the full dominion of earth-the redemption fully offsetting the curse "But," the Apostle proceeds, "we see not yet all things put under him." (Hebrews 2:8.) Do we see anything? Has any star of hope arisen guaranteeing the coming biess ings? Yes! The Apostle declares, "We see Jesus, made a little lower than the angels, crowned with glory and honor"-just as the first man was-and this in order that He might suffer death-in order that He might be the Redeemer or Ransomer of the first man and his family, humanity.

Thus we see that the foundation has been iaid for God's return of favor to humanity-a Sin-Offering and Atonement, covering Adam and all of his race What a grand superstructure of blessings will ultimately be erected upon this broad and gracious foundation! But we ask. Why the long delay of more than eighteen centuries?-and yet the work of uplifting the race of Adam from sin and death has only been started-only the Church bave had their eyes and ears of understanding opened, permitting them to come into relationship with God through Christ.

The Answer is important.

Unless it be seen that the work of they were in many respects, served this Gospel Age has been specially to the cause of Satan and misrepresented select the Church, Christ's joint-heirs in His Messianic Kingdom, no answer Imperfect human reasoning is ant to can be given as to why the Almighty

Sence, revolting from the thought of the Heavenly Kingdom. Its blessings waited for and prayed for are still fusword and flame, by thumb-screw and ture. They cannot come until the Firstfruits shall have been barvested. St. James (1:18: declares that the Church conquering the world by the Gospel is a kind of First-fruits unto God of His creatures. Through this First-fruits the Divine blessing will operate amonest men for a thousand years, to restore that which was lost-human perfection in the image and likeness of

the Creator. St. Paul's argument proceeds along this line. He declares that the tirst feature of the Divine Plan is to bring many sons to giory-as joint-heirs with Jesus. As Jesus was made perfect through sufferings, so these following Him as their Captain and Lender, walk- Total rainfall 1907 ing in His steps, are also to be made perfect through sufferings, for "if we suffer with Him, we shall also reign with him."-Heb. 2:10; 2 Tim. 2:12.

Proceeding, the Apostie discusses this sanctified class, Head and Body. They are sanctified or set apart under a special covenant, which rends, "Gather My saints together unto Me, those that have made a Covenant with Me by sac-(Psaim 50:5.) This special sanctification or setting apart to sacrifice marks this little company of sons of God as separate and distinct from all others of God's creatures. With their Lord and Bead, they are beirs of God-joint-beirs with Jesus Christ their Lord, if so be that they soffer with Him. The Redeemer who sametifies them and those who are sanctified through Him "are all of one | Body or company], for which cause He is not ashamed to call them brethren, saying, ren-in the midst of the Church will I sing praise unto Thee."-Heb. 2:11, 12.

Then the Apostie's argument proad- drow. ens so as to include the general scope of Messiah's redemptive work-extend-Adam and all the familles of the earth. for indecent exposure. St. Paul quotes in proof of this, "Hehold, I and the children which God hath given Me." This statement evidently applies to those who will be saved to the human, earthly salvation during the Millennium. They will all be the children of Messiah. That it could not but His brethren, His spouse, His mem-

Christ Jesus and His Children.

St. Peter elsewhere emphasizes this, saying. "The God and Father of our Lord Jesus Christ hath begotten us. (1 Peter 1:3.) Jesus emphasized this also, saying, "My Father and your Father." Never did the Master speak of Himself as the Father of His Church class, nor would it be an appropriate figure that He should be rep. W. H. Windrow's. resented as espoused to His own children. On the contrary, He is prophetically declared to be the father life, even if she can't throw a stone of restored humanity. To the world with any degree of accuracy. He becomes the Second Adam. The first Adam, the qualified head or tasentence of death.

In making satisfaction for sin He associates with Himself the Elect, who present their bodies living sacrifices, boly and acceptable to God, as His members. Then in dealing with the world He will officially take the place of Live-Giver. or parent-to restore, to regenerate, to revive, to resurrect, to uplift, all the willing and obedient, during the thousand years of His Messianic Kingdom.

All obedient to Him will thus be enabled to regain all that was lost through the first father. Adam-human perfection in an earthly Paradise, with everlasting life and fellowship with God. Since Jesus will be the Life-Giver to all of the race at the cost of His own life. He is appropriately styled their Father, and they His children. So also we read in the prophecy that He shall be called "The Prince of Peace." the Father Everiasting-the Father who gives exeriasting life.

All Things Put Under Him.

At the dawn of this thousand-year Day in which His Kingdom will accomplish the full rolling away of the Curse, how appropriate that this text should have our consideration! And how appropriate it is that this text should greet the thousands who enter and leave our Union Station! As we run to and fro in these chariots which go like lightning, let us have in mind their newness, and also the fact that the Lord has specially declared that they will be signs by which His people may know that they are fiving in the time when they may expect speedily the fulfilment of the gracious promises of our God to the effect that He will through Jesus' Kingdom wipe away all tears from all faces, bind up the broken bearts, liberate the captives of sin, and deliver the captives of the tomb.

St. Paul refers to our text when discussing Messiah's Millendial Reign. (1 Corinthians 15:27. Here he declares that Divine Power will put all things under Messiah, that He will reign gloriously and victoriously, and that at the close of His successful work He will deliver up the Kingdom of earth to the Father, restored to the original glory of manhood, with not a rebel to be found-because all the wilfully wicked will be destroyed.

How beautiful, how complete and how togical are all of the Divine arrangements for the great work outlined in the Bible as the Divine Plan of the Ages! When all mankind shall come to see His Wisdom, Justice, Love and Power, many knees shall bow and many tongues confess to His glory and majesty. Surely the number destroyed in the Second Death will be propor c motaly small!

ISTORY tells us that the battle of Winchester was won by the valor and courage of General Sheridan and the poet has given us a graphic description of "Sheridan's Ride." as he hurried to the battlefield and saved the day, the battle having begun with Sheridan twenty miles away. The battle for commercial supremacy is now raging on land and sea. Our strategic position, our undeveloped resources and our progressive citizenship makes Texas the battlefield of Twentieth Century civilization and every man in Texas must ride under whip and spur to save the day with the Panama Canal less than three years away.

Hondo,

HE GOT THE PICTURE.

The Sporting Editor Put One Over on the City Editor.

There is no more enthusiastic follower of the fistic gentry than Charlie Horan. Years ago he was sporting editor of a New York paper, which later went by the boards. During his connection with it the paper was run "upon the cheaps." Penny paring was the chief occupation of the managing editor. As illustrations cost money. nothing short of a national disaster could force a picture in the paper.

Horan was a firm believer in the star of Jim Corbett, then matched to fight John L. Sullivan. One day Corbett visited New York, and Horan sent his staff out to get a photograph of the great man. None was availa ble. Horan got angry, slammed on his hat and announced that he would get one himself. He found a full length picture in the lobby of the theater where Corbett was showing, put it un der his arm and started back for the

In the meantime word had come to the city desk that William Windom, then secretary of the treasury, had died while addressing a dinner of the chamber of commerce in Chicago. The city editor sent his men out to get a picture of Mr. Windom. By and by Mr. Horan appeared, bearing an enor mous framed picture under one arm.

"I got it." he announced cheerfully. "When I go after a picture I get it." The city editor leaped for him, seized the picture and then threw it down

"That," said he tersely, "Is not a picture of the secretary of the treasury." "What do you care about the secre-

tary of the treasury?" replied Horan defiantly. "That's a picture of the next champion of the world!"-Chica

A Shakespearean Abysm. The late Andrew Lang had many amusing tales to tell of his treatment by printers and proof correctors. In one of his articles he had quoted the Shakespearean phrase, "In the dark backward and abyem of time." When he received his proof he found a query against the word "abysm." Scribbling the word "Shakespeare" on the margin, he returned the proof, not unnaturally imagining that this would recall to the reader the quotation from "The Tempest." To his horror, Mr. Lang found when he opened the magazine containing his article that his sentence ran. "In the dark backward and Shakespeare abyam of time."

Carlyle and the Ax.

Carlyle as a schoolmaster was a terror to evildoers. Even the biggest and boldest boys wilted when he growled out "dunce" or "blockhead."

THE JOINER RUSHED IN.

was enough to hush a whole school from the schoolhouse. Through the window he saw Carlyle doing the flogging act in his most approved and vigorous fashion. Jumping to the door, the joiner rush in, handed his ax to the perspiring Carlyle and exclaimed: "Jist doo't ootricht, mon, and no mince maiters."

Taken at His Word.

When Rossetti was a student of art he one day happened to go with some fellow students to the east end of Lon don. There at a wharfside inn he saw an immense canvas on the barroom wall. After laughing at it for some time and thus provoking the innkeep er's wrath the following conversation took place:

"Where did you get that picture?" "Oh. never mind. young man, where I got it!"

"What price do you set on it?" "More than you can afford."

"Indeed!" said Rossetti "Now, how

"Three thousand pounds." replied the innkeeper

At this there was a loud burst of laughter from the young artists.

"Do you know how much I would give you for your £3,000 picture?"

"How much?" asked the innkeeper. "Three pounds," said Rossetti.

"Done," said the innkeeper promptly. And to his amazement and amusement Mr. Rossetti found himself the owner of the colossal daub.

GOV. O. B. CULQUITT.

Changes In the Flag.

The president's tlag-which few Americans have ever seen-now has a blue field instead of a red, the change officially taking place on July 4, the date on which all changes in all offcial flugs, including the nutional flug. go into effect. The national flag of official design now bears forty-eight stars, but as this would unduly growd the blue square or "union" on small fings it is directed by executive order that colors less than five feet in width shall bear only thirteen stars. There have also been established standard sizes for flags used by the government, the twelve standard sizes ranging from twenty feet to 31 feet hoist or width. Heretofore flagmakers bave been allowed to use their own taste and judgment in the proportions, but the new regulations fix the following scale: Hoist (width), 1; fly (length), 1-9; holst of union (or blue field). 7-13; fly of union, .76; width of each stripe, 1-13. New York Times.

The Roumanian's Tobacco.

Roumania, the dark horse of the Balkans, may be said to have been wafted into good government on a cloud of tobacco smoke, for it was the tobacco monopoly established by the degenerate ruler Couza that brought about his compulsory abdication. Every Roumanian smokes, and Couza came up against a national habit. with the usual result. It was in 1866; that the present ruler, Prince Charles of Hohenzollern-Sigmaringen, was invited, in the teeth of the concert of Europe and the sultan, to become Couza's successor, and nothing liner ever happened to Roumania, except its queen. Carmen Sylva. But the good Lazy Liver fortune of Roumania is also due to Bismarck, who counseled the young prince to accept the proffered throne, remarking, "If you fail you will at any rate have a pleasant reminiscence for the rest of your life."
